Muhammad Waleed

Full Stack Developer | Building Intelligent Apps with RAG • AI Agents
• MCP | Next.js • React • Node.js • PostgreSQL
Peshawar, Khyber Pakhtunkhwa, Pakistan

Summary

I'm a Software Engineering student at CUSIT Peshawar, building my path toward becoming a Full Stack + AI Engineer. I specialize in building modern web applications using React, Next.js, Node.js, and PostgreSQL — and I'm actively expanding into AI Engineering with RAG systems, AI Agents, and MCP (Model Context Protocol). Certified in: → Agentic AI Foundations with MERN, RAG & MCP → Build Production AI Agents with RAG & MCP → AWS Fundamentals (In Progress) build AI-powered products that solve real problems. Currently open to: Remote internships, junior roles, and freelance opportunities. Tech Stack: Next.js • React • Node.js • PostgreSQL • Prisma • OpenAI API • RAG • AI Agents • MCP • AWS

Experience

CGBZ Society CUSIT

Web Developer

December 2024 - May 2026 (1 year 6 months)

Peshawar

Working as a Developer in the society where I contributed to building and improving technical projects. Collaborated with team members to design solutions, write clean code, and solve real-world problems while gaining hands-on development experience.

Education

City University of Science and Information Technology

Bachelor's degree, Computer Software Engineering · (2024 - 2028)
